Dear Ms. Dillman.

I am writing to formally request the removal of a tree on my property located at 2243 North Indian Hill Blvd. I attempted to submit this request via the official appeals form; however, the system would not allow me to submit, stating that the description contained too many characters.

I am requesting the removal based on the following four reasons:

1. Property Damage: Since moving into this home, we have had to file three separate claims for driveway replacement or removal specifically due to damage caused by the tree roots.
2. Infrastructure Concerns: We are concerned that the roots will cause further damage to our plumbing and sewage lines. Having already experienced four floods in this home for various reasons, we are anxious to prevent further major issues.
3. Health Issues: We have recently learned that we suffer from severe allergies to the pollen and other materials produced by this specific tree.
4. Maintenance and Utility: The tree makes it very difficult to park cars on the property, as it constantly drops sap and honeydew.

Thank you for your time and for considering this request. I look forward to hearing from you regarding the next steps in this process.

Best regards,

Dan Berens
