Hello,

We are the homeowners of [REDACTED] Claremont, CA 91711. We are writing in advance of the City Council meeting being held on 5/27 at 630pm. Our concerns with the townhouse development being proposed on Darwin as well as a need for a 10 freeway sound wall.

Firstly, the proposed townhouse development is a cause for concern due to the bottlenecking traffic that happens near Indian hill as well as difficulty parking and increased crime rates for Claremont and Pomona residents.

Lastly, the residents along Bryn Mawr Rd, S College Ave, and Mills Ave surrounding streets in southern Claremont would greatly benefit from a sound wall along the 10 freeway (similar to that along the 210 fwy).

We would like to strongly request that a sound wall is built to reduce the noise levels generated by traffic, creating a quieter environment for those living or working near the 10 freeway. Currently, we do not open windows to avoid the loud noises that come from such a busy and bustling freeway (even more so with the tolls). A sound wall would contribute to a more peaceful and comfortable environment, reducing stress for residents and improve overall quality of life.

Thank you for your consideration and attention to these matters.

Sincerely,
Jeremy and Breanna Camara

[REDACTED]
Claremont, CA
